Learning outco	mes	By the end of the course students will acquire basic knowledge in the						
0		field of forensic linguistics and will be able to:						
		-define and differentiate between basic concepts in the field of						
		forensic linguistics -analyze the relationship between forensic linguistics and other						
		linguistic disciplines, and the law						
			haracteristics of th	e language	e of the	law and		
		ambiguity in legal texts						
		 describe the factors that contribute to autorship attribution identify patterns of language use in processes of collecting 						
		evidence						
		- interpret the characteristics of different forms of language crime						
		- apply the acquired knowledge on the analysis of different						
		examples of legal texts, linguistic evidence and language use in collecting evidence and court procedures						
Learning outco	mes at the		mes at the level of t		mme to v	which the		
Programme lev		course contribut	es include the follow	ing:				
		- connect different approaches, perceptions, and knowledge						
			disciplinary approac		gijmentat	tion		
		 apply a critical and self-critical approach in argumentation explain language as a form of human activity, as well as the 						
		linguistic and non-linguistic factors that enable successful						
		communication						
		- analyze the relationship between identity, language ideology, language politics and language planning

University of Zadar Universitas Studiorum Jadertina | 1396 | 2002 |

Course	Lectures:								
content	1. Introduction to forensic linguistics (defining the concept of forensic linguistics and								
	the areas that the discipline deals with; the development of forensic linguistics; introduction to legal language and legal discourse)								
	2. Language of the law I (vocabulary, grammar, and style of the language of the law)								
	3. Language of the law II (ambiguity in legal texts)								
	4. Language as forensic evidence I (text as autorship and autorship attribution)								
	5. Language as forensic evidence II (forensic phonetics)							,	
		6. Language as forensic evidence III (genre and sociolinguistic factors in linguistic							
	variation as forensic evidence)								
	7. Mid-term test								
	8. Language and the law I (court and police)								
	9. Language and the law II (suspects and witnesses)								
	10. Multilingualism and translation in the legal context							1	
	11. Dealing with linguistic evidence I (forensic text, forensic transcription, and forensic autorship in practice)							na	
				e II (forensic lingui	stic ovidonc	o in log	al		
	procedures)	inguistic	viuence	in (intensic inigui		e in ieg	ai		
	13. Language crime (threats, perjury, conspiracies, bribary)								
				hate speech, racisr					
	15. End-term test	0.1		- '					
				covered during the					
	examples of language of the law, autorship attribution, and collection and processing of linguistic evidence.
